Rating Module – Completely Web Enabled

A screenshot of a Microsoft Internet Explorer browser window. The title bar reads "IFWR - Search Form - Microsoft Internet Explorer". The address bar shows "http://192.168.0.60/RATING/Rater_Search2.cfm". The main content area features the "Extended-Enterprise Visibility System™" logo and the "INTERNATIONAL Freight Watchers™" logo. Below the logos is the heading "EEVS™ Rating & Routing Module - Manual Search". On the left, there is a promotional graphic for EEVS Support™ Supply & Demand Chains, listing services like Rating & Routing, Rate Management, ASN EDI, Automated Load Tendering, Status Monitoring and Messaging, Ship-Don't Ship Decision Support, and Multiple Transportation-Mode Support. The main form contains three rows of search criteria: "ORIGIN ZIP" with a dropdown set to "is" and an empty text box; "DESTINATION ZIP" with a dropdown set to "begins with" and an empty text box; and "PRODUCT QTY" with a dropdown set to "is" and an empty text box. Below these is a "Select Product" dropdown menu. A "SUBMIT QUERY" button is positioned below the dropdown menu. The browser's status bar at the bottom shows "Done" and "Internet".

Note:
a) Shipping Cost **DOES NOT INCLUDE** Accessorial Charges.
b) **Ship Cost%** is a percent of **Product Co\$t.**

Showing Product Cost (unit & extended), Transportation Cost and Total Landed Cost among other information.

The far left column allows user to click [BOL] to create Bill of Lading.

Under Tariff column – in a live scenario, the carrier SCAC or other ID would be shown to aid the user.

Carrier list is in order of least shipment cost.

Product cost, weight, and NMFC classification are all stored and maintained in our database – that is part of the service we provide.

Another use for EEVS is determining “ship from other location” or “buy from vendor.” By utilizing EEVS in this manner we obtain a file transfer on a regular basis that is ran against EEVS to produce information vital to purchasing staff to make the best decision when overstock or critical needs have to be met at the best cost – overall.
